REMARKS

Enclosed find an Information Disclosure Statement and the references cited there, together with the appropriate fee for filing this Statement before a Final Office Action has been issued.

Applicant thanks the Examiner for the many constructive suggestions for various formal amendments to the claims to address formalities. The enclosed amendments adopt the Examiner's suggestions regarding formal (rather than substantive) amendments. These amendments are formal in nature; they do not change the substance of the claims, are not made to define patentability over the prior art, and do not narrow the scope of the claims.
